Internal Evaluation, Concurrent Evaluation and External Evaluation

Master of Computer Application (MCA)(2020 Pattern)

Internal Evaluation

The internal assessment follows the guidelines of the respective program, specifically the MCA program provided by Siddhant Institute of Computer Application, affiliated with SPPU.

The MCA program operates on a Choice Based Credit System (CBCS), allowing students to earn their degree by accumulating the specified number of credits associated with the program. Each course is allocated a set number of credits, determined by the content to be mastered and the anticipated effort required from the student. The primary distinguishing features of the Choice Based Credit System include Continuous Learning and Student-Centric Concurrent Evaluation.

MCA Program Structure

The internal evaluation of 25 marks further divided into Written Examination (Assignments/Unit test/written examination etc.), Practicals and Tutorials. The details have been specified in each course. Internal Assessment for the course is based on following concurrent evaluation.

A. Mid Term Assessment(20 marks):

We conduct internal exam in our college. Midterm Assessment will be based on Short answer.

B. End Term Assessment(50 marks):

Term End Examination of I, III and V Semester will be conducted in the month of October and for the semester II, IV, and VI will be conducted in the month of March/April. End Term Assessment will be based on Objective Type Questions, Short Answer Questions etc.

C. Course Exit Survey(10 Marks):

In this method, a student is asked to assess himself/herself on his/her understanding or demonstration of the course outcomes. A well designed questionnaire mapping to all the course outcomes is part of the Course exit survey and will be conducted at the end of course.

D. Continuous Assessment(70 marks):

Faculty members in the course are granted the freedom to create Continuous Assessment Components, determine marks, and implement them in a way that provides a comprehensive evaluation of students' capabilities in knowledge, skill, and attitude (KSA) dimensions. This evaluation is achieved through the use of diverse assessment tools throughout the semester, ensuring a well-rounded assessment.

- Problem Based Assessment/Practical based Assessment(PBA)-50 marks
- Theory based Assessment/Tutorial Based Assessment(TBA) – 50 marks

In the above table total internal Theory course evaluation of 150 marks will be converted to 25 marks (internal marks i.e.IM). And out of 25 marks students have to score a minimum 40% i.e. 10 marks to pass the internal Examination.

2.2 Guidelines to conduct Practical/Mini-Project evaluation for Semester I, Semester II of MCA – 2020 pattern

2.2.1 Practical: The timetable for practical assignment submission is created by the course faculty and distributed to the students through recognized means like the notice board or Whatsapp group. Additionally, students are required to take practical exams at the end of semester. The total marks of the practical course will be calculated as follows

External Examination

Overview of External Examination Process:

1. Pre-Examination Phase:

This stage generally involves informing students about the examination fee structure and the schedule for submitting examination application forms in accordance with the university's specified timetable.

After students complete and verify their examination forms, attaching the latest stamp-sized attested photographs, the institutes organize and submit them to the University within the prescribed deadline. The forms are categorized based on the examination, course, and branch.

Upon receiving the examination forms, the university generates hall tickets for end-semester examinations. Students can obtain their hall tickets from the institute.

The institute keeps students informed about the examination timetable, which is received from the University website.

2. Examination Phase:

The College Examination Officer will obtain an OTP from the university and download the designated question paper within the timeframe specified by the university, typically half an hour to one hour before the examinations. Subsequently, the question papers are dispatched to the examination halls.

Invigilators are responsible for distributing the question papers to the candidates during the examination. Candidates then proceed to write their exams on the provided answer sheets at the Examination Centers.

Upon the conclusion of the examination, invigilators collect the answer booklets from all candidates. The institutes organize these answer booklets based on courses, subjects, branches, etc., and forward them to the respective Central Assessment Programme (CAP) center.

3. Post Examination Phase:

All answer sheets gathered at the Central Assessment Program (CAP) undergo masking in adherence to the University Act. Various methods, such as manual coding and barcoding, are employed for this purpose.

Within the CAP Centers, instructors of the respective courses assess the Answer Booklets and perform moderation according to prescribed norms. The marks on the answer booklets are then tabulated and entered into the results sheets. Concurrently, affiliated colleges furnish internal marks and lab marks to the university. Based on this information, the final results are declared, and documents like mark sheets, grade reports, passing certificates, and provisional degree certificates are issued to the students. The institute distributes the mark sheets to the students.

Any student has the option to apply for verification, photocopying, or reevaluation. Subsequently, the answer sheets undergo verification (retotaling), photocopying, or reevaluation, depending on the specific case.
