## Report of Workshop on "Career Options after MCA"

**Speaker Name:** Mr. Rohit Patil

### Speaker Details:

Mr. Rohit Patil is Technical Founders of Softrain Solution Pvt. Ltd, with 15+ years of experience in IT industry. He is primarily focused on open source. He has extensive experience in working with clients from various domains like IOT, industrial automation, retail & fintech start-ups, education etc. to name a few. He has worked in USA, UK for 8+ years and has experience of working with clients from Belgium, Australia, India etc. His primary area of expertise is in product engineering, starting from helping customers ideate products to evolving their architecture to developing the solution and finally taking it to market in a short period of time.

### Objective:

Beginning journey to pursue a Master of Computer Applications (MCA) degree opens doors to a field of unparalleled opportunities in the evolving field of information technology. This postgraduate program, spanning three years in Indian Universities, meticulously combines theoretical foundations with hands-on practical knowledge, equipping aspiring IT professionals with a diverse skill set. As the digital landscape advances, the demand for proficient individuals with MCA qualifications is reaching unprecedented heights, leading to a number of jobs after MCA.

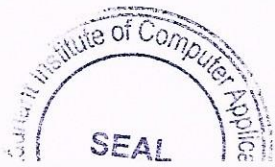

### Challenges in the Job Market

Navigating the job market as an MCA graduate presents a landscape characterized by intense competition and evolving demands. The increasing number of MCA graduates underscores the competitiveness, making it imperative for individuals to strategically position themselves to stand out. Securing a job after MCA is not merely a combination of academic accomplishments but also a reflection of the ability to align skills with industry demands.
