## Report on workshop on "Full Stack Development"

A workshop on "Full Stack Development" was organized for MCA Students on 19/01/2024. The main Aim of the workshop is to enhance the programming skills of the students and to create awareness on industry standards. The workshop was inaugurated by Mr.Nitin Shirrao Sir, Director, Siddhant Institute of Computer Application, Sudumbare

In his inaugural address, Mr.Nitin Shirrao Sir spoke about the importance of learning and understanding the industry standards. Sir also insisted the students to go make use of the opportunities provided by the department and convert it into a fruitful result. Later the session was handled by the resource person for the event Mr. Nikhil Rai. He gave introduction to the platform and requirements of Full Stack Developers in the Industry. cross-functional team structure and collaborative approach ensures that all reviews and client feedback are incorporated in the development process were discussed. He also explained the role of a full stack web developer. He has covered different topics like how to make a prototype rapidly, easily switch between front and back end development based on requirements and better understanding about new and upcoming technologies. Hands-on experience was provided to students. The session was very interesting with the participants responding with admissible questions and observations. The participants gave them feedback on the workshop. And finally the sessions of the workshop was concluded by facilitating the resource person.
